

The logo for Vultor, featuring the word "VULTOR" in a bold, white, sans-serif font. The letter "V" is stylized with a green chevron shape pointing to the right, and the letter "O" contains a green triangle pointing upwards.

VULTOR

The word "REFERENCES" is written in a large, yellow, outlined, sans-serif font. The letters are spaced out and partially overlaid by the structural elements of the elevator shaft. The text is positioned in the lower-middle section of the image.

REFERENCES

The tagline "WE ELEVATE MOMENTS" is written in a smaller, white, sans-serif font. The word "ELEVATE" is highlighted in green, matching the brand's color scheme. The text is located at the bottom left of the image.

STRONG PRESENCE

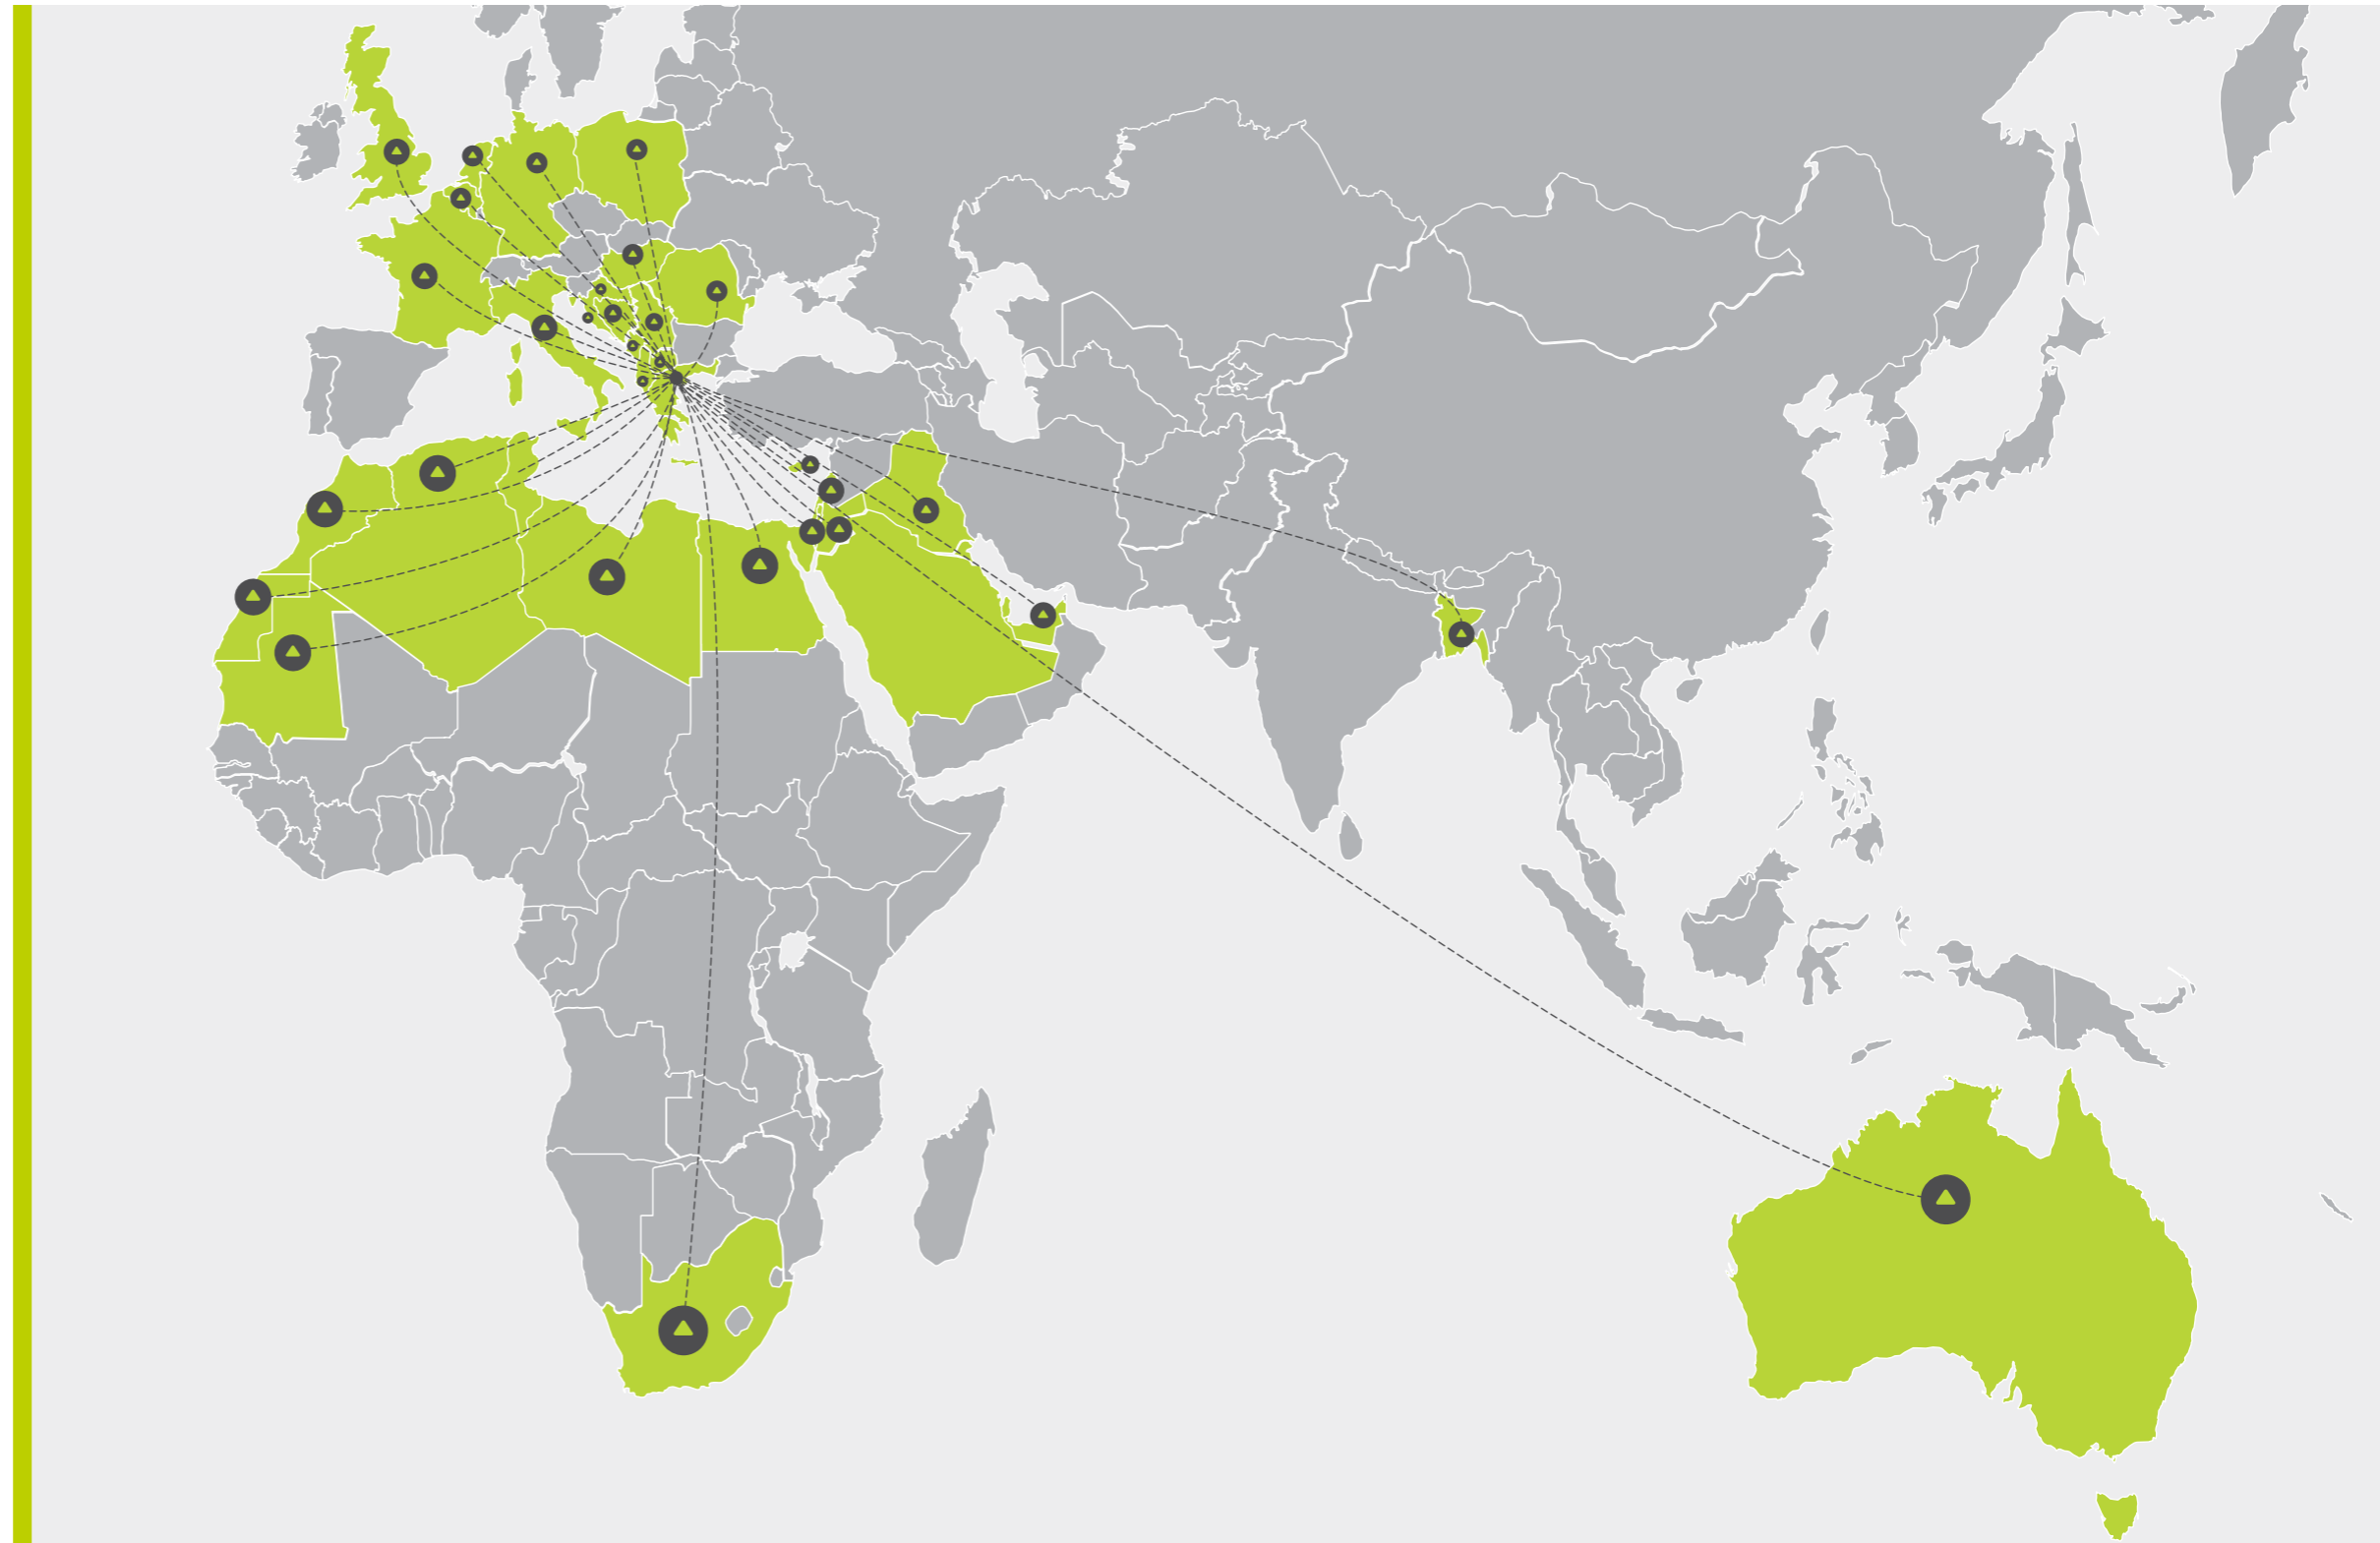

WYLTOR has a strong presence in the international market and exports its products to 33 countries, while it is also constantly developing.

Flexibility in lift study and design

offers solutions that comply with national law requirements and any construction needs required.

33 countries

Greece, Cyprus, Malta, Poland, Italy, Germany, Netherlands, Hungary, UK, Belgium, France, Serbia, Romania, Croatia, Montenegro, Albania, Bosnia & Herzegovina, FYROM, Algeria, Mauritania, Morocco, Tunisia, Libya, Egypt, Jordan, Israel, Iraq, Kingdom of Saudi Arabia, Kuwait, UAE, Bangladesh, Republic of South Africa, Australia

At WYLTOR, for 45 years, we have been creating more than elevators.

We create solutions that make our lives even better, that change our daily routines for the better.

From hotels to car parks and department stores to apartment buildings, our elevators continue to serve thousands of people every day in more than 33 countries, providing safety, comfort and a unique flow experience.

It is a fact that in a world that is constantly changing, our passion for continuous improvement of everyday life, remains at the heart of our philosophy.

ALIMOS PEDESTRIAN BRIDGE

ATHENS, GREECE

The construction of the pedestrian bridge in Alimos, was completed on October 23th, 2020. As one of the few pedestrian bridges in Athens, it's an important addition for the safety of the pedestrians and it's of special architecture interest. 4 panoramic elevators with glass doors were installed, in order to provide the best service to the pedestrians, while maintaining the architectural value of the project.

630 KG
GLASS DOORS
MRL ELEVATORS

CITY HALL POLYGYROS, GREECE

The installation of an elevator in this project was a special case, as there was no space predicted in the historic building, which also functions as a town hall.

A hydraulic elevator was installed in the building, with a special construction of a shaft, as well as a panoramic cabin with full glass doors.

COMPLEX LAZARET

HERCEG NOVI, MONTENEGRO

Complex Lazaret is an adaptive reuse of an old 18th Century Venitian Lazaret. This architectural complex consists of two parts: a hotel with marina and a commercial hub with luxury apartments. 2 MRL, 2 Hydro and 1 cargo elevator were installed in this historical complex, with the capacity of 630-3000kg for 2 & 3 stops.

HISTORICAL OFFICES BUILDING

THESSALONIKI, GREECE

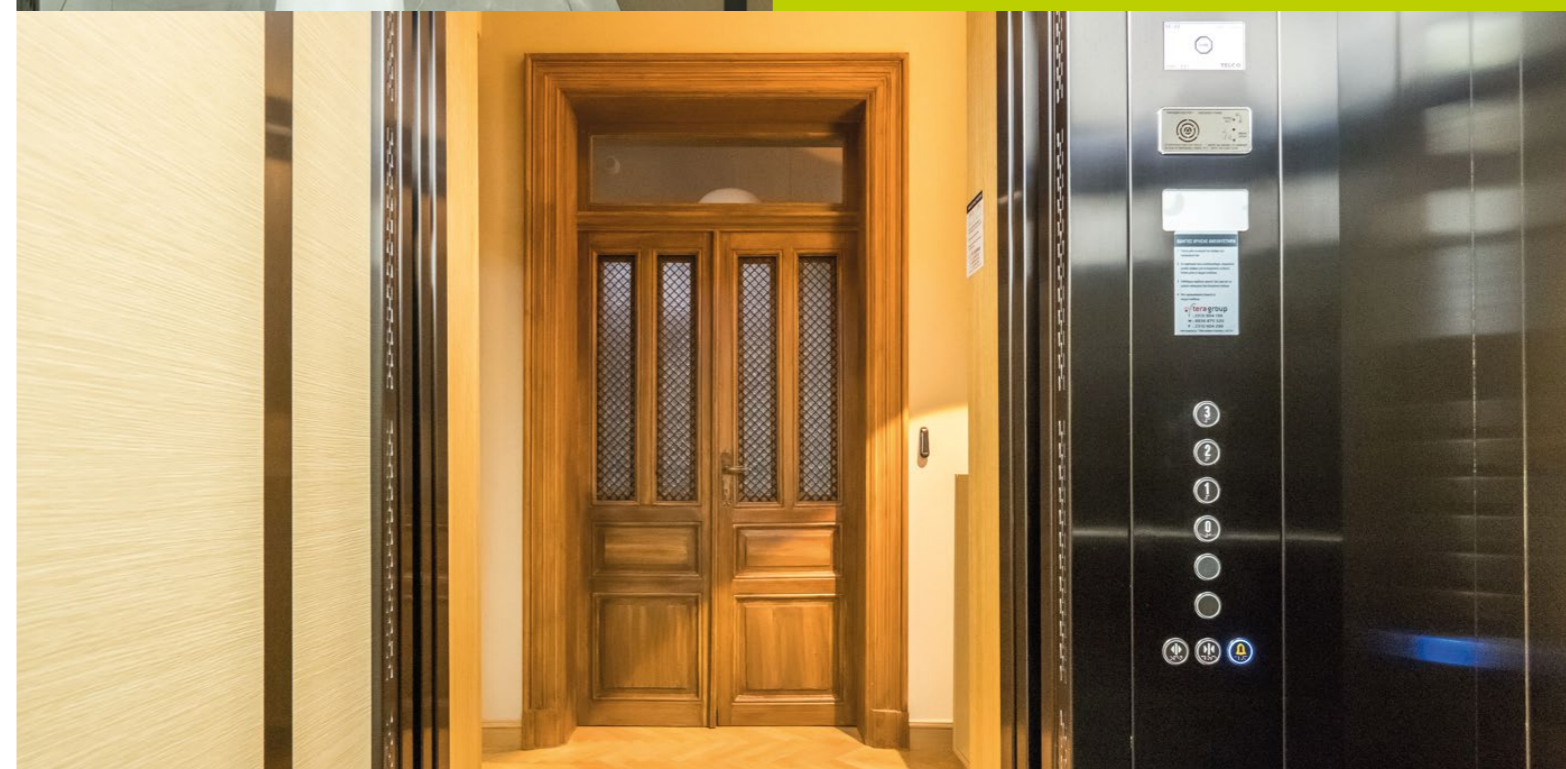

The Longos mansion, also known as the Red House, is a three-storey house in Agias Sofias Square in the center of Thessaloniki. An elevator was designed and constructed in order to harmonize aesthetically with the existing building, while at the same time the frescoes in the inner masonry of the shaft and its roof had to be preserved, due to the historicity of the building.
